Accessing a particular resource or database

Purdue likely pays for access or has a library guide (Libguide) for it

Example search: "Cloud storage Purdue libraries"

Or: "Census Data Purdue libraries"

How to find more resources

Search string: "Database/resource Purdue Libraries"

Finding a specific article

- Search the title with quotes around it with author's last name outside the quote
  - "The False Promise of International Institutions" + Mearsheimer
- Long title?
  - "Social Forces, States, and World Orders: Beyond International Relations Theory" by Robert Cox
  - Start with everything before the punctuation, e.g.:
    - "Social Forces, States, and World Orders"

Finding a specific article

- Here are some example searches, (some) from my work at the library:
  - Book: Air Transportation - A management perspective
  - Article: Oneal, John R, and Bruce M Russett. 1997. "The Classical Liberals Were Right: Democracy, Interdependence, and Conflict, 1950–1985"
  - Article: "The role of design in circular economy solutions for critical materials" by Callie W. Babbitt, S. Althaf, Fernanda Cruz Rios, M. Bilec, T. Graedel

Finding articles on a topic

Three large databases for finding articles: (see cheat sheet)

SCOPUS

Web of Science

Google Scholar

Finding articles on a topic

- For these, searches take more time.
- Use keywords, grouped together with quotation marks
  - Often, the words scholars use are not exactly what you think of.
  - No results? Try synonyms or non-plural forms of your search
- Example search:
  - Someone said, "I am doing a persuasive essay on 'Nonviolent drug offenders should be sent to rehabilitation centers and not prisons.' and I am attempting to look for journals that would help support my claim."

Practice Search Activity

- Putnam, Robert D. 1988. "Diplomacy and Domestic Politics: The Logic of Two-Level Games"
- Fearon, James D. "Domestic Political Audiences and the Escalation of International Disputes"
- Pouliot, Vincent. 2008. "The Logic of Practicality: A Theory of Practice of Security Communities"
- Mitchell, Timothy. 1991. "The Limits of the State: Beyond Statist approaches and Their Critics"
- Gourevitch, Peter. "The Second Image Reversed: The International Sources of Domestic Politics"
- Moravcsik, Andrew. 1997. "Taking Preferences Seriously: A Liberal Theory of International Politics"
- Rosato, Sebastian. 2003. "The Flawed Logic of Democratic Peace Theory"
- Timothy McKeown - "Hegemonic Stability Theory and 19th Century Tariff Levels in Europe"
- David Lake - "Leadership, Hegemony, and the International Economy: Naked Emperor, or Tattered Monarch with Potential?

Practice Search Activity cont.

- Find this article:
  - MicroRNA-497-5p Suppresses Tumor Cell Growth of Osteosarcoma by Targeting ADP Ribosylation Factor-Like Protein 2
- Having issues?
  - Search for the journal 1st
  - Find access through our database
  - Search for the article
- Still no luck?
  - Request it through ILL (don't submit the request)

Here's some general topics to search:

- Find 5 articles around 1 of the following sub-topics and save them to Zotero
- Choose 1 of the following:
    - Offensive vs. Defensive Realism
    - US Supreme Court Justices and opinion polling
    - Gender inequality in UN Peacekeeping missions
    - The Rise of China and Balance of Power theory
    - Volkswagen emissions scandal (narrow it down until you have ~50 articles)
    - Or if you have a topic in mind we can try and narrow it down
